INTRODUCTION

This book is the culmination of over two years of digging, searching, letter writing and personally visiting many of the people and places listed. It was not our original intention to publish an almanac of this scope, but after unsucessfully trying to obtain information, we came to the conclusion that data of this sort was too scattered, out of date, or at best too hard to find by the librarian or schoolteacher who is trying to put together a meaningfull class concerning thae past, present, or future of the American Indian.

We make no claims that this material is complete. We would, however, like to say it is all totally accurate, but, after our many efforts, have come to the conclusion that we, as a group of Native Americans, are now, will be, and have always been in a state of transition. That is our way. We would like to keep this book as up-to-date and as accurate as possible. Therefore we would be most appreciative if our readers would point out our errors to us and keep us posted on changes that take place. We would also like to be told of other facts that would be valuable additions to be included in any following editions.

We have tried to include up-to-date addresses for our readers to contact regarding books, periodicals, and audio-visual materials. If any of our readers need additional materials we will be happy to cooperate in any way we can.
